EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the abstract, "Appendix" has been deleted to correct an typographical error.

Allowable Subject Matter

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Although the prior art is replete with teachings of a PTCelement module of a pre-heater for vehicles, the prior art does not teach to one of ordinary skill in the art, and in combination with the other limitations of the independent claims, a PTC element comprising a positive terminal composed of two sheets, an upper sheet of which has a fastening hole and upward bended ribs formed at opposite edges of the fastening hole, a ring shaped insert insulator inserted between ribs, a ptc element inserted into an inside of the insert insulator, a bottom surface of which is in contact with a lower sheet of the positive terminal. The instant application is deemed to be directed to a non-obvious improvement over the inventions patented in Pat. Nos. 6472645, 5256857, 5854471 and 5562844. The improvement comprises a positive terminal composed of two sheets, an upper sheet of which has a fastening hole and upward bended ribs formed at opposite edges of the fastening hole, a ring shaped insert insulator inserted

between ribs. Listed prior art discloses separate insulator with hole to hold PTC element. In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to eliminate insulator with hole and replacing it a positive terminal composed of two sheets, an upper sheet of which has a fastening hole and upward bended ribs formed at opposite edges of the fastening hole, a ring shaped insert insulator inserted between ribs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
